Product Description & Directions For Use:

Fibresafe Gold is a professional extraction formula developed for safe and effective cleaning of wool and stain resistant nylon carpet fibres. S780 incorporates a buffered, self-neutralising pH cleaning system which is suitable for use on most carpets and fabrics, subject to pretesting. Approved by the "Woolsafe" Organisation for use on wool-rich carpets. **Portable extraction machines** - Mix 15ml. (1 measure scoop) of S780 per 5 litres of warm water in the machine solution tank. Mix thoroughly until fully dissolved. **Truck-mount units** - Mix 1 kilo of S780 in 20 litres of water to make metering concentrate. Set flow meter at 2 to 4 GPH. **Always pretest carpet or fabric for colour fastness and texture change with ready-to-use solution before proceeding. If pre-inspection indicates a risk of colour bleed or cellulose browning, test with B109 Fibre & Fabric Rinse and use accordingly.** Pretreat heavily soiled areas with S711 Traffic Lane Gold according to label directions, then follow up with normal extraction cleaning procedure.
