## Kleenoff Thick Bleach

### Introduction

Kleenoff Thick Bleach is part of the Jeyes Professional range of products for general cleaning tasks.

It is essential to maintain high standards of hygiene in any public environment and usage of the correct products relevant to each task is of paramount importance.

When used as part of a regular cleaning programme, carried out by properly trained staff, Jeyes Professional products can help ensure standards are consistently high.

In addition to a range of bleaches, the Jeyes Professional general cleaning range also offers disinfectants along with solutions for outdoor and general cleaning.

Your Jeyes Professional Sales Representative or the Customer Care team can offer advice on product usage and application.

### Features & Benefits

- Kills all germs, bleaches, removes stains and freshens.
- Easy to use with directable jet.

### Formulation

- Contains Sodium Hypochlorite and Sodium Hydroxide.
- pH 12.0 – 14.0

### ✓ Areas of Use

- Toilets, sinks, basins and outside drains.
- Suitable for cold bleaching.
- Safe to use with septic tanks.
- Keep bottle upright and store in a cool, dry place.

### X Where NOT to use

- Do not use on wool, silk, coloured, synthetic or specially treated materials unless approved by the manufacturer.
- Keep away from carpets and soft furnishings.
- Do not use on enamelled sinks and baths or plated articles.

### Directions For Use

- To remove safety cap, place bottle on a firm, flat surface. Squeeze the grips on the cap and turn it in an anticlockwise direction.
- To replace cap, place bottle on a firm, flat surface. Remove the cap and turn it clockwise until a click is heard.

- **Toilets** – pour neat around toilet bowl and leave overnight to kill germs and remove stains.
- **Outside drains** – pour neat into drains to disinfect and cure unpleasant smells.
- **Sinks** – pour neat down wastepipe and rinse with cold water after 2 to 3 minutes.
- **Cold bleaching** – do not pour undiluted bleach onto fabric – dilute first. Use a solution of 20ml bleach to 5 litres water. Soak for 45 minutes and rinse thoroughly. If soaking overnight, use half strength.

### Health & Safety Precautions

- Keep locked up and out of the reach of children.
- Irritating to eyes and skin.
- Contact with acids liberates toxic gas.
- Avoid contact with skin and eyes.
- After contact with skin, wash immediately with plenty of water.
- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- Wear suitable gloves and eye/face protection.
- In case of accident or if you feel unwell, seek medical advice immediately and show container or label.
- Do not mix with acids or other chemical products.
- Detailed health and safety information is provided on the product safety data sheet.
