Quality Tools for Smart Cleaning

THE MOST ADVANCED

ERGONOMIC 2-COMPONENT SWIVEL HANDLE

Ultimate ergonomics

Perfect for pole work

Ergonomic Handle

Lightweight ergonomic handle designed to perfectly fit the human hand. High quality anti-slip rubber for better comfort and precise control.

ErgoBall Area

Indented handle head allows for comfortable grip.

Thumb Area

Thumb pad on top for additional control.

Tension Adjustment

Coin adjustable stainless steel screw to increase or decrease the swivel tension.

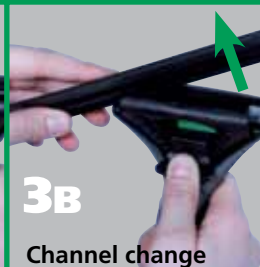

Cone Lock

Firmly locks onto Unger Locking Cone.

TRILOC CHANNEL LOCKING MECHANISM

Fast and secure channel change and repositioning

Locked Position

Channel is locked.

Secure Open Position

Channel is fixed and can not fall out or be moved.

Release/Slide Position

Slide to adjust channel position or twist to exchange channel.

Channel slide

Channel change

Tension screw allows custom locking settings – works with most popular aluminium channels.

ADVANCED WINDOW SQUEEGE

Swivel Function

Perfect for telescopic poles and hard to reach areas. Locks in any position. Choose tension to keep desired angle.

SMARTCLIP

Revolutionary End Clip Design

Open / Closed

 **Closed:** Secure rubber during work. If needed, just pull rubber to secure to desired tension.
 **Open:** Change rubber or decrease rubber tension.
One-hand-operation:
Easy to operate even with gloves.

Frame Protection

Designed to protect window frames from scratching. SmartClips can be easily replaced by hand or with a screwdriver.

EE DESIGN EVER

Quality Tools for Smart Cleaning

EXTRUDED AIRCRAFT ALUMINIUM T6

Aircraft Aluminium T6 Channel

Lightweight and stable Extruded Aircraft Aluminium T6 channel construction. Choice of lengths up to 105cm - for speed cleaning large areas. Will not bend or break. Perfect pressure distribution.

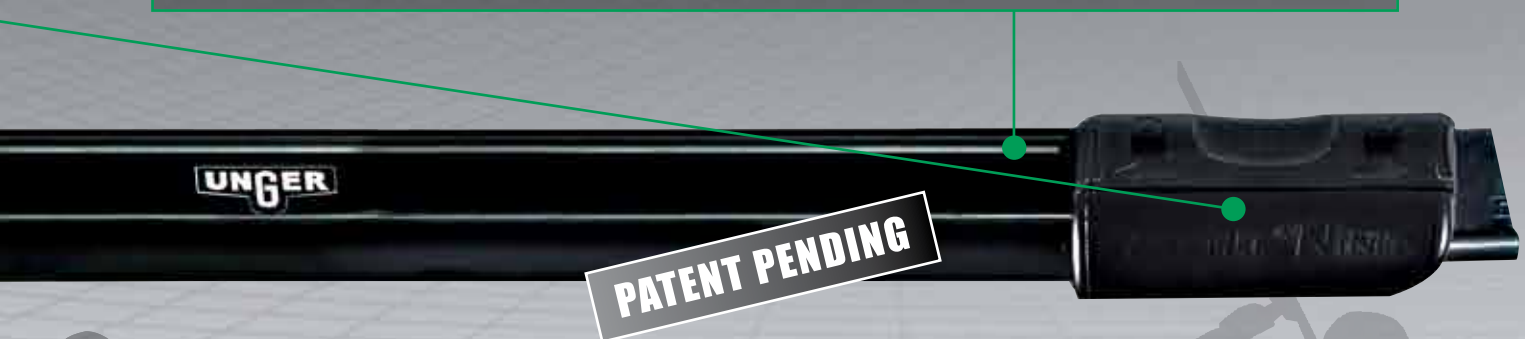

Flexible Rubber Positioning

Choose from two rubber positions: Lower position for shorter channels (1), higher position for the longer channels (2). Each always has the right pressure and contact with the glass.

Ninja Star Markings

Special Ninja star markings to easily find center position.

ERGOTEC® NINJA

Quality Tools for Smart Cleaning

ADVANCED TECHNOLOGY FOR HIGHEST EFFICIENCY

ERGOtec® NINJA: Makes Tough Jobs a Lot Easier!

The new **ERGOtec® NINJA** provides numerous benefits for increased efficiency for the professional window cleaner. Channels up to 105cm long dramatically reduce the time required for cleaning large surfaces, allowing you to achieve more in less time. The revolutionary ergonomic design ensures smooth and easy performance – even after hours of intense cleaning.

ERGOtec® NINJA – the smartest tool for professional window cleaners.

Product Innovations:

- Adjustable rubber tension ensures perfect results for every window size and channel length.
- Aluminium channel does not bend and keeps rubber perfectly straight on the glass surface.
- TriLoc mechanism prevents channels from accidentally separating from handle and falling out - great for working at height, abseiling and cradle work.
- The **ERGOtec® NINJA** locks onto the Unger Locking Cone and can be used for safe high access cleaning with telescopic poles.

Maximum Efficiency:

- Clean large glass surfaces in less time.
- Perfect pressure distribution requires less power application.
- Swivel lock makes pole work fast and easy.
- Fast rubber and channel change with channel always in secure position.

Quality Tools for Smart Cleaning

ERGOTEC® NINJA SYSTEM CHART

ERGOTEC® NINJA WINDOW SQUEEGEE COMPLETE

- Ergonomic Handle: features Swivel and TriLoc safety function.
- Extruded Aircraft Aluminium T6 Channel: lightweight, will not bend or break, quick rubber change, perfect pressure distribution.
