

FANTASTIC FABRICS!

Clover Chemicals' high performance laundry products beat market leaders for ultimate wash performance and economy!

Laundry Detergent

- Laundry Detergent boasts outstanding **stain removal power**. In recent tests, Laundry Detergent was proven to remove blood, liver, red wine, gravy, coffee, industrial grease, food oils, grease and mud.
- Thanks to its **optical brighteners**, Laundry Detergent helps to maintain and enhance the colour of fabrics, preventing fading.
- A concentrated product, Laundry Detergent allows for ultimate **economy** in use.

Laundry Destainer

- An additive which **penetrates and breaks down stains**, allowing them to be removed more easily from the fabric by the detergent.
- Its **bactericidal formula** kills all gram positive and gram negative bacteria.
- This product is **ideal for use in hospital and care home laundries** to remove severe blood, body matter or bodily secretions that have dried into fabric over a period of days.

Fabric Conditioner

- Used in conjunction with Laundry Detergent and Destainer, Fabric Conditioner **provides comfort and softness** to all fabrics.
- It is **concentrated** for economy and leaves a pleasant, **long-lasting fragrance**.
- Fabric Conditioner can be used both in washing machines and for hand-washing.

Laundry Sanitiser

- Laundry Sanitiser is a specialist sanitiser additive, designed to **kill MRSA** and all other bacteria in laundry at ambient temperature.
- It is designed for use through the Clover Chemicals Ultra Marsan dosage system where it is accurately dosed into the final rinse at a level of 150ppm available chlorine (Department of Health recommendation).
- This is ideal for use in establishments which launder infected fabrics, e.g. **care homes or hospitals**.
