

# SILK

## LUXURY HAND SOAP

### ***Softens and Moisturises***

A cosmetic-grade hand soap, Silk contains Almond Oil and Aloe Vera to moisturise and soften the skin.

Almond Oil and Aloe Vera are both humectants, widely used in beauty products to provide skin with essential moisture and conditioners.

When Silk is lathered into skin, derivatives of Almond Oil and Aloe Vera penetrate the pores, enriching the skin with essential oils and locking in moisture.

When skin maintains its optimum moisture levels, it is soft and radiant.

With regular use therefore, Silk will provide skin with Almond Oil and Aloe Vera to help retain the skin's moisture and softness.

### ***Versatile***

Due to its outstanding conditioning qualities, and its mild formulation, Silk is suitable for use on all skin types. Ideal as a hand soap or an all over body cleanser in showers, Silk is recommended for use in health clubs, leisure centres and gyms.

**Silk produces a rich foam in hard or soft water, without creating soap scum.**

### ***Prestigious***

Silk's recently improved formula is ultra thick and creamy, making it the ultimate luxury hand soap.

A pearlised light cream-coloured liquid, made from an aqueous blend of surfactants, Silk lathers into a mild, rich foam.

The rich foamy suds rinse away easily, leaving skin replenished and revitalised.

With its pleasant perfume, derived from Almond Oil and Aloe Vera, Silk leaves a subtle fragrance on the skin.

Due to its luxury features, Silk is recommended for use in the most prestigious establishments, where every detail is essential to maintain excellent standards.

### ***Hygienic***

As an hygienic alternative to soap bars, Silk is a liquid soap, used through dispensers.

Contamination from dirt and bacteria in use is therefore eliminated.

When used in 500ml dispensers, or 1ltr cartridges, the risk of cross contamination of the soap is eliminated, as there is no contact with the soap when refilling an empty dispenser.

**Suitable for use through dispensing equipment.**

**Silk is available in 300ml, 1ltr Refill Cartridges and 5ltr Bulk Refill Bottle**
