

# ACTIV F

## UNIVERSAL NEUTRAL CLEANER

- SPARKLING FINISH - LEAVES A SHINING STREAK FREE FINISH.
- VERSATILE - NEUTRAL/SAFE ON SENSITIVE SURFACES.
- CUSTOMISED - SPECIALLY DESIGNED FOR INDUSTRIAL AND INSTITUTIONAL USE.
- SOAP FREE - USE IN HARD OR SOFT WATER.
- FORMULATED WITH A THOUGHT TO OUR ENVIRONMENT.

### DESCRIPTION

**ACTIV F** is a viscous orange liquid, containing a high active blend of emulsifiers.

**ACTIV F** is an economical, highly effective detergent designed for use on alkali sensitive surfaces than can be cleaned with water.

**ACTIV F's** long lasting, mild foam ensures sustained cleaning action and improved efficiency.

### USES

**AUTOMOTIVE:** Used extensively throughout the automotive industry to clean paintwork, bodywork, plastic, rubber, perspex, aluminium and upholstery, leaving a clean finish free from streaks and spotting.

**JANITORIAL:** An effective neutral cleaner for all floors, walls and surfaces. **ACTIV F** is safe even when concentrated on polished floors, terrazzo, marble, painted surfaces, glass, etc.

### DIRECTIONS & DILUTIONS

**AUTOMOTIVE:** **ACTIV F** should be diluted at a ratio of 1 part to 150 parts warm water. Apply the solution generously with a sponge or cloth, starting at the highest point to be cleaned. After cleaning rinse off thoroughly, or alternatively mop up the surplus liquid with a well wrung out sponge or leather.

Do not exceed the recommended strength and avoid cleaning whilst vehicles are exposed to hot sun.

**JANITORIAL:** For general cleaning dilute 1 part of **ACTIV F** with between 80 to 160 parts of hot or cold water depending upon the degree of soiling. Mop floor or surface thoroughly with the solution of **ACTIV F**, wring out the mop and take up the surplus solution. Allow the floor to dry. Burnish the floor if required to enhance gloss.
