

Product Specification Sheet

KILL ODOUR

ODOUR ERADICATION TREATMENT

Size: 5 Litres

Powerful blend of essential oils with a 'pear drop' fragrance for complete odour removal. Not a masking agent! This product actually 'eats' away bad odours. Can be used on all water washable surfaces. Ideal for eradication of odours from urine, feces, smoke, vomit and refuse/waste and other spillages.

Precautions for use

Do not overwet fine fabrics, use a fine mist spray. Test for colour fastness first. Observe the general safety regulations when handling chemicals. If swallowed, seek medical advice immediately and show this container or label. In case of contact with eyes or skin, rinse immediately with plenty of water. Keep out of the reach of children.

Directions for use

For general deodorizing add to cleaning solutions 5ml to 50ml of 0024 per litre of water. Dilute as needed for sprayers and fogging equipment. Kill Odour must come into contact with the source of the odour to be able to 'eat away' the bad smell. If required use neat especially in very bad areas.

pH 7
