

Product Information Sheet

Craftex
Dry Fibre Compound
0061

TOTAL CLEANING SYSTEMS

Craftex Dry Fibre Compound

Product No
0061

Absorbs and removes soiling and odours from all types of carpet leaving you with cleaner, fresher and newer looking floors.

Suitable for use on all types of carpet including wool, sisal and coir. Can also be safely used on raised flooring.

For best results use 0061 in conjunction with the full range of Craftex products.

DIRECTIONS

Vacuum the carpet thoroughly. Most dry dirt is found at the base of the carpet and should be removed prior to commencing cleaning. Vacuuming assists in opening the carpet pile allowing for deep cleaning.

It is important to work in small areas at a time to prevent 0061 from drying out.

Apply directly onto the carpet only where there is dirt. Agitate 0061 into the carpet using a dry carpet cleaning machine. Leave until completely dry and vacuum away.

750g of 0061 will clean approximately 20sq metres of medium-soiled carpet.

Precautions for use

May cause skin or eye irritation.
It is recommended to wear protective gloves when handling the product.
Avoid breathing dust.

Classification

Contains Anionic surfactants: <5%,
Non-ionic surfactants: <5%, Aliphatic hydrocarbon: <5%, 2-Octyl-2H-isothiazol-3-one: <5%, Bronopol: <5%.
Fragrances: Linalool, Limonene & Hydroxyisohexyl 3-cyclohexene carboxaldehyde.
