

Sanilav Urinal Channel Blocks

- Detergent based blocks to clean, fragrance and neutralise odours in urinals.
- PDCB Free – Contains No Paradichlorobenzene.

Introduction

It is essential to maintain high standards of hygiene in any washroom and usage of the correct products relevant to each task is of paramount importance.

When used as part of a regular cleaning programme, carried out by properly trained staff, Jeyes Professional products can help ensure standards are consistently high.

In addition to the new range of Sanilav channel blocks, the Jeyes Professional washroom range also offers solutions for toilet cleaning, disinfecting and descaling along with a range of washroom cleaners.

Your Jeyes Professional Sales Representative or the Customer Care team can offer advice on product usage and application.

Features & Benefits

- PDCB Free - Does not contain Paradichlorobenzene.
- Typically lasts twice as long as previous Jeyes Professional non-PDCB formulations.
- Lasts up to 4 weeks (dependent on urinal turbulence).
- Proven to last 30% longer than competitor offerings in controlled tests.
- Biodegradable (complies with EC648/2004 detergent regulations).
- Detergent based – cleans as it fragrances.
- Helps control limescale.
- Contains quality, high impact fragrances with recognised odour neutralising components.
- Water soluble – will not block water outlets.
- Average contents of a 3kg tub is 150 blocks.

✓ Areas of Use

- Urinals and male washrooms.

Directions For Use

- To freshen, fragrance and neutralise odours in male washrooms, place 2-3 blocks into urinal channels as required or space proportionally in the channel.
- Replace with new blocks after 4 weeks or as necessary.

Health & Safety Precautions

- Risk of serious damage to eyes.
- Keep out of the reach of children.
- Avoid contact with eyes.
- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- After contact with skin, wash immediately with plenty of water.
- Wear eye/face protection.
- If swallowed, seek medical advice immediately and show container or label.
- Detailed health and safety information is provided on the product safety data sheet.

Formulation

- Contains no paradichlorobenzene.
- pH 6.0 – 8.0 (concentrated solution).

Palletisation

36 x 60g – 9 layers of 42 cases = 378 cases per pallet
3kg – 5 layers of 20 tubs = 100 tubs per pallet
